Sino-Dental Highlights

Innovation Zone

Innovative achievements in the field of digital restoration

Latest products such as digital impression scanner and precise dental esthetic preparation system were displayed at the same time.

Release of new products and technologies

More than **100 new products and new technologies** were centralized displayed in the New Product and New Technology Release Zone.

The 5th Dental Master Dialogue

As a brand project of Sino-Dental, the 5th Dental Master (Prof. Zhenkang Zhang) Dialogue was carried out on June 9, themed on "The development mode of private practice and business models in China—when dental professional encounters commercial capital”.

International Dental Industry Summit

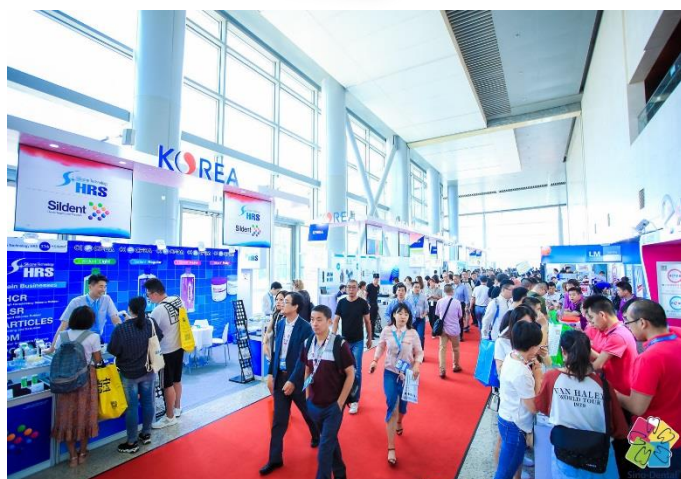

On June 9, the first “China Dental Industry Prospect under Global Perspective Report” was released at the Summit.

An international section aiming to build an international platform for communication, discusses the development and needs, opportunities and challenges of the international dental market.
